### **Fall Update**

Our B&B operation in St. Paul, Oregon has enjoyed a good Fall this year! We have a loyal group of core customers that keep coming back for our quality & consistency. Not only do we appreciate their business but the relationships we've developed over the past several years have given us life-long friends.

At our bare root farm in Hubbard, Oregon we are pleased with the growth and quality of our liner crop. Although we had a very late spring, the ensuing warm weather made up for the lost growth time, and our crops matured as expected. With the Indian Summer in our region we pushed off digging for a few weeks to allow for full dormancy. We are now in full swing and have begun digging bare root liners.

Make sure you take advantage of our year-end discounts on all bare root and tissue culture plants. Don't hesitate to call one of our sales representatives – *with a combined total of **OVER 100 YEARS EXPERIENCE** in the nursery industry* – to discuss pricing today. East Region...Jill Sliker—860.873.9931: Midwest...David Ogle—440.413.6546: Mid-Southwest...Mike Roberts—816.578.4135: West...Cary Hall--303.517.1705.

Gail Coleman, Tiffanie Baker, and Mike Peterson would also be happy to hear from you in our Hubbard, Oregon headquarters.
